

REMOVE BODIES BY WAGONLOADS

Methods of Odessa Butchery Too Revolting to Be Described.

MASTER IS UNMATCHED EVEN IN RUSSIAN HORRORS

Simply Slaughter Jews Without Hindrance Until Sated With Blood.

ODessa, Nov. 4.—The center of the city is quiet. The street cars are running, the shops and markets are open and the butchers are working. The telegraph wires are crowded with dispatches from newspapers and private citizens who have been sending reassuring messages regarding the situation here in view of the rumors in various parts of the world.

Quarters Devastated. The quarters of the Jews are completely destroyed. It is impossible to ascertain how many were killed. The authorities yesterday counted thirty bodies, but the number is believed to be much larger. Up to this morning, the bodies of the victims were being taken to the hospital for burial.

Kill Pillagers. The Cossacks from the streets and in the houses, have been killing the pillagers. The authorities have issued orders to the Cossacks to kill the pillagers. The pillagers have been killing the Jews. The authorities have issued orders to the Cossacks to kill the pillagers.

Mobs Flood Sated. The mobs of the worst is over. The mobs are sated with the blood of the Jews. The mobs are sated with the blood of the Jews. The mobs are sated with the blood of the Jews.

Methods Revolting. In some instances the military aides aided instead of prevented the work of vengeance and fury which culminated yesterday in the quarters mentioned. Every Jew, man, woman or child, who was caught was slaughtered. The methods employed in the work of butchery were too revolting for description.

Rifles Drive Beasts Back. Before this morning's dawn the material had become exhausted and the men who had for the moment become beasts left the wrecked sections of the city and, though sullen, were driven back before the rifles of the infantry.

Some Bodies Remain. A trip of investigation this evening over the Jewish quarters confirmed the stories of horrors and devastation. Some bodies, mutilated, of women and children, were still unmoved from the deserted streets. The shops were closed, and in the wrecked houses broken furniture was lying everywhere in heaps.

Nearly 6000 Wounded. While it is probable that the total number of persons killed will never be known, the number of wounded persons in the hospitals and ambulance-houses affords some guide. The 567 wounded reported up to this morning were distributed as follows: In the Jewish hospital, 275; in the municipal hospital, 190; in the district ambulance-house, 68.

Police Shoot Students. At the beginning of the massacres the students' militia rendered some assistance and saved many lives, but the police, it is said, disarmed the students and even in some cases shot them with their own revolvers.

Face Situation Bravely. The disaster is unprecedented even in the long list of horrors Russia has produced during the last few years, but the citizens, while still nervous, are facing the situation bravely. They are organizing relief committees and erecting refuges for the homeless families and children who were saved from the fury of the mobs.

It is announced tonight that railway traffic will be resumed Monday.

HAS WON HER FREEDOM. Emperor Hopes Only to Prevent Severance Grand Duchy.

LONDON, Nov. 4.—The second edition of the London Times today published the following dispatch from St. Petersburg, dated November 2:

"Finland has won her freedom. A manifesto embodying all the demands presented by the popular delegates at Helsinki to Prince John Obolensky, the Governor-General, will be submitted by the Secretary of State Luder for the Imperial signature at Peterhof tonight. The key-stone of the new Finnish constitution is the responsibility, not of the monarch as hitherto, but of the Secretary of State and the Diet."

The presence of Russian warships off Helsinki is intended to signify that although the Emperor grants constitutional freedom, he intends to prevent the severance of the Grand Duchy from the empire.

AMNESTY IS GRANTED. Manifesto Defines Relief to Political Prisoners.

ST. PETERSBURG, Nov. 4.—The text of the imperial manifesto granting amnesty to political prisoners, signed by Emperor Nicholas yesterday, declares that by virtue of the intention expressed in the manifesto of October 20 to accord the population inviolable principles of civil liberty, free pardon is granted to political criminals of various categories, which are enumerated, and to participants in strikes, and persons responsible for breaking contracts.

ORDON EXTENDS. The amnesty decree includes political offenses committed up to October 30.

SITUATION IS THREATENING. HELSINKI, Nov. 4.—There were continued encounters here today between the "Loyalists" and a crowd of Socialists who were entrenched behind the railway track. The Socialists succeeded in setting fire to the railway station. There were many casualties. A battalion of troops was summoned to restore order. During the day the theater was pillaged.

ENCOUNTERS AT TOMSK. TOMSK, Siberia, Nov. 4.—There were continued encounters here today between the "Loyalists" and a crowd of Socialists who were entrenched behind the railway track. The Socialists succeeded in setting fire to the railway station. There were many casualties. A battalion of troops was summoned to restore order. During the day the theater was pillaged.

ROORBACKS! Beware of roorbacks! There is not a shadow of a doubt that a number of these will be circulated by despotic agents of the Utah Light and Railway company, and political missionaries of the Mormon church between now and election day.

They are experts at this work. The past has proven them masters at it. These will be set adrift too late to be disproven by friends of the American party and it will stand every American in hand to not be misled by these tactics.

He is a coward who will spring sensational stories against candidates at the eleventh hour of the campaign unless his statements are absolutely provable. Some of the dirty work that has already been done during this campaign is a sufficient assurance that the political missionaries of the church and the light octopus and the Jack-Mormon sycophants will stoop to any dirty trick that is calculated to divert American votes from the American party nominees.

committed over ten years ago are to be released and will be sent to the Siberian colonies. Those who are now colonists there will be allowed after four years to choose their place of residence, but are prohibited from living in the capitals, St. Petersburg and Moscow, for three years.

Have Sentences Reduced. Convicts not falling under these categories have their sentences reduced by one-half, and persons condemned to imprisonment for life have their sentences reduced to fifteen years imprisonment. The pardon extends to all prisoners who benefited by previous manifestos. Persons arrested by imperial or administrative order are released. Those condemned to death are to have the penalty commuted to fifteen years imprisonment at hard labor.

CHICAGO CHIEF IS SHY. Declares That Undraped Art Is Too Immodest.

CHICAGO, Nov. 4.—In the opinion of Chief of Police Collins, art in unblushing nakedness is an eyesore. The classic lines of the statues on exhibition at the art institute and at the Field Columbian museum need something more than sandals and fig leaves to screen them from the public gaze, which is susceptible to contamination.

PEOPLE KICK AGAINST RANK CAR SERVICE

Waterloo Line Run in Such a Way That It Is No Service at all.

Running trolley cars on the ecclesiastical circle plan is illustrated by the Waterloo line. Its service being one car short, there is no waiting when a car will pass a given point, so that would-be passengers can stand on the curb and just wait until one comes in sight. Then, if near a meal hour, one is in luck to develop a hunger for a hot meal, to say nothing of having standing-room.

A Tribune subscriber living on Fifth South street, who has been a passenger on the Waterloo line for some time, has been so annoyed by the service that he has written a letter to the city fathers, complaining of the service. He says that the Waterloo line is a disgrace to the city and that it is no service at all.

CHAIRMAN DICK SANGUINE. Is Positive Ohio Will Be Strongly Republican.

COLUMBUS, Ohio, Nov. 4.—Chairman Charles Dick today gave out the following prediction: "Based upon the final poll reported by the County chairman from the eighty-eight counties of the State, every doubtful vote having been counted against us and every estimate made upon the most conservative lines, a net Republican plurality of 33,561 is shown for Gov. Herrick."

"In my experience, covering many State campaigns, actual Republican pluralities have exceeded, rather than fallen below results indicated by the poll, and I have every confidence that this will be the case at the election next Tuesday."

"The same reports also justify the claim that the Legislature will be strongly Republican in both branches."

IS AFTER COLLEGE MEN. Prosecutor Hopes to Upset Stories About Boy's Death.

MOUNT VERNON, Ohio, Nov. 4.—The Delta Kappa Epsilon fraternity on the night Stuart Pierson was killed, were tied with ropes and blindfolded," said young Pierson's father today.

"In the darkness," he said, "Freshman Jones, while blindfolded, ran into two different men who were in my personal knowledge, with the consequence that his nose bled profusely."

"The college men," declared Prosecutor Stillwell today, "have arranged to tell the same stories throughout, but the Delta Kappa Epsilon fraternity are sometimes points that show the whole a fabrication."

INCIDENTS INDICATIVE OF UNREST ARE FREQUENT. VIENNA, Nov. 4.—A racial demonstration took place here today between students of the University, a few stones and sticks being used. Otherwise the day passed off without serious consequences.

The affair arose from German-speaking Austrian students who are adherents of the "Wacht am Rhein" movement, cheering for German ideals and ordering the Slav and Italian students to leave in honor of the "Wacht am Rhein."

The latter refused, whereupon the Germans charged and ousted the Slavs and Italians from the university grounds. The incident is indicative of the political unrest of which the near future is liable to produce other evidences.

ON A MORAL CRUISE. Revenue Cutter Has Been Enforcing Laws in Alaska.

SAN FRANCISCO, Nov. 4.—Under special commission from the Department of Justice, the United States revenue cutter Bear has arrived here from a long cruise in Arctic waters, where for months the vessel has been employed in breaking up the illicit traffic in liquor and the raiding upon natives which have been the scandal of the Alaskan coast for many years.

The Bear, under the command of Lieut. J. H. McMillan, has been successful in breaking up the illicit traffic in liquor and the raiding upon natives which have been the scandal of the Alaskan coast for many years.

SEATTLE MAN CLAIMS HALF INTEREST IN FOUR MILLION DOLLAR PLANT. HAD VERBAL CONTRACT WITH FATHER, NOW DEAD. Now Realizes, He Says, Sum of \$465 for Twenty Years' Work.

CHICAGO, Nov. 4.—Charles H. Baker of Seattle, Wash., filed a bill in the United States Circuit court here this afternoon for an injunction to restrain the transfer of any of the stock or securities of the Snoqualmie Falls & White River Power company of the State of Washington. Baker, who claims a half interest in the plant, said to be worth millions, alleges in his bill that he received only \$465.

SUES BROTHER FOR MILLIONS

Seattle Man Claims Half Interest in Four Million Dollar Plant.

HAD VERBAL CONTRACT WITH FATHER, NOW DEAD. Now Realizes, He Says, Sum of \$465 for Twenty Years' Work.

CHICAGO, Nov. 4.—Charles H. Baker of Seattle, Wash., filed a bill in the United States Circuit court here this afternoon for an injunction to restrain the transfer of any of the stock or securities of the Snoqualmie Falls & White River Power company of the State of Washington. Baker, who claims a half interest in the plant, said to be worth millions, alleges in his bill that he received only \$465.

Had Verbal Contract. Baker is the son of William T. Baker, now dead, former millionaire financier and stock broker of Chicago. The latter furnished the money, and the complainant, he avers, the skill and brains for the development of the plant. The complainant alleges, because of the relations naturally existing between father and son, no contract was ever reduced to writing. However, the bill says a verbal agreement was made, the father agreeing to furnish the money if the son would develop the power plant, each to enjoy half the profits.

Brother Is Administrator. Howard W. Baker, brother of the complainant, is administrator of the estate of the father and, it is charged, by alleged manipulation of more than \$2,000,000 worth of stock in the power plant, has arranged matters so the complainant cannot get what he claims as his; that all he received was the \$465.

Demands Half Interest. Baker, in his bill for an injunction, also asks an accounting with his brother on all other properties of the father and N. W. Harris & Co., and Dexter Horton & Co. Although there were no other properties in addition, he asks a decree of the court giving him a one-half interest in all power plants of his father having to do with the power plant.

Discovered Possibilities. The complainant was a civil engineer, but without means, according to the story set up in the bill. He discovered in 1887 the possibilities of taking power from certain waterfalls in the State of Washington and furnishing power to surrounding cities. He worked over his plan for ten years. Then he discovered the great power sources in the Snoqualmie falls, with which he interested his father, the late William T. Baker, who held the stock known in addition. He asks a decree of the court giving him a one-half interest in all power plants of his father having to do with the power plant.

Establishes Large Plant. As a result of his efforts, Baker alleges, he established a large cheap electric light and water power plant, with an output of more than 10,000 horsepower in Washington. By much personal effort, he secured a franchise to furnish power to the city of Seattle. He claims that he was in complete control and had power of attorney from his father, that he could spend his father's money. He did all these things, he declares, with the full knowledge and consent of his father and with complete understanding of the nature and extent of the future he would be given half interest.

Purchased Other Companies. When his duties became too great, he hired Thomas T. Johnson, a civil engineer of Evanston, Ill., to assist him. He purchased the White River power company at Pierce, Wash., a corporation with capital stock of \$1,000,000. Other companies were formed for disposition of the power in cities and towns, and were combined under the name of the Snoqualmie Falls & White River Power company.

Failed to Draw Contracts. Baker declares that in developing the power plant at the falls, he was hindered by his father's will. He was hindered by his father's will. He was hindered by his father's will. He was hindered by his father's will.
